

Sensitization to constitutional obligations

Manipal School of Life Sciences (MSLS), MAHE Manipal continues to promote and sensitize its students and employees on the constitutional obligations – the values, rights, duties and responsibilities as citizens, by its active participation in Independence Day and Republic Day celebrations every year, while also conducting other events. Students, research scholars and staff of MSLS actively participate in the marching parade and salute the flag on these days of national importance. They have also won accolades and awards for their performance as the best marching contingent during these events in 2022-23.
