

1.3.1 Institution integrates cross cutting issues relevant to Gender, Environment and Sustainability, Human Values and Professional Ethics into the Curriculum.

MSW programme, Department of Global Health has integrated in the curriculum the topics such as gender, environment and sustainability, human values, health determinants, right to health, human rights and professional ethics. The above topics have been integrated throughout the four semesters under various courses. Students are also exposed to get a better understanding on these cross cutting issues through workshops, street plays, lectures, observation and field visits. Awareness programmes were conducted for various communities in partnership with District administration and local NGOs. Programmes related to these issues were also organised on special occasions.
