Dear Participants,

Greetings from E-Learning for Public Health!!

As Director of the Resource Centre for Tobacco Control (RCTC), it gives me immense pleasure to inform you that the Advanced Course on Tobacco Control organized by the Resource Center for Tobacco Control under Department of Community Medicine and School of Public Health PGIMER Chandigarh will be launched on 26th September, 2024.

I am happy to announce a six-month online course (17-weeks teaching and 9-weeks practicum) on "**Advanced Course on Tobacco Control**". The course consists of 17 modules with/70 units with 40 tobacco control experts as the resource faculty. During the course, you will be exposed to more advanced topics (besides the basic ones covered during 1st course) in tobacco control viz. Economics of Tobacco Control, Behavioural Change Communication in Tobacco Control, Multi-stakeholder Engagement and Integration, Second Hand Smoke (SHS), Managing Special/Vulnerable groups, Emerging Challenges and Opportunities in Tobacco Control, Monitoring and Evaluation and many more. We believe that the participants of the current course will be prepared for better job opportunities after attending this course and will also benefit from networking with tobacco control experts.

The participants will be taught through a multi-pronged adult learning pedagogy consisting of video lectures, reading materials and live interactive sessions. Tests will be conducted at the end of each module. Besides this, participants are expected to engage with their peers in the discussion forums, and undertake practicum/assignments and project work with eminent mentors. Although it is a self-paced course, we expect you to follow the course timelines seriously.

Through this course, we aspire to add value to the participants' knowledge and skills, which in turn, will help them personally and professionally.

In this regard, I invite you to join the launch event (Virtual) of the course.

Topic: Official Launch of Advanced Course on Tobacco Control 4th Batch

Time: Sept 26, 2024 03:00 PM India

Join Zoom Meeting
